### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kenneth W. Jarrell on March 6, 2006.

The application has been amended as follows:

Claim 12 has been cancelled as not reading on the elected species.

2. The following is an examiner's statement of reasons for allowance: The prior art does not teach a continuously variable transmission (CVT) as defined by the claims. It was known in the art (see US Patent 1,459,979) to construct a CVT having a pair of cones disposed on a common axis, a counter shaft disposed about the cones, the counter shaft having friction members engaging the cones to vary a ratio of the transmission. The prior art does not teach the claimed combination of features as defined by the instant application, including cones configured to float radially, a pair of counter shafts, wherein each counter shaft is configured with end portions having different diameters.

3. Claims 10 and 14 have been rejoined as being dependent on an allowable generic claim.

Art Unit: 3682

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
